

METHODS MACHINE TOOLS, INC. NEWS RELEASE

METHODS MACHINE TOOLS, INC. IS THE #1 SALES VOLUME PARTNER FOR CARL ZEISS INDUSTRIAL METROLOGY PRODUCTS IN NORTH AMERICA.

SUDBURY, MA. U.S.A. (October 6, 2010) – Methods Machine Tools, Inc., a leading supplier of innovative machine tools, automation cells, and machine tool accessories has been recognized by Carl Zeiss Industrial Metrology as the #1 sales volume partner in North America for the 2009/2010 Carl Zeiss fiscal year. Methods is responsible for sales of Zeiss metrology products in the New England territory.

Carl Zeiss Industrial Metrology, headquartered in Maple Grove, MN, is the world's leader in CNC coordinate measuring machines (CMMs) and complete solutions for multidimensional metrology. With over 90 years of industrial metrology experience, Carl Zeiss provides customers with the right solutions for superior product quality and increased productivity.

Methods Machine Tool, Inc. has been a leading supplier of precision machine tools, automation cells, and machine tool accessories for over 50 years, providing installation, parts, service, and training through a network of technology centers and dealers throughout North America and Mexico.
