Triple H40

Column Traverse Type Horizontal Machining Center

The Triple H40 is designed to incorporate various table options according to your production requirements.

Tilt / Rotary Table **OPTION**

Table Size: 500x500mm

For high productivity, Kiwa offers a Tilt/Rotary table which can accommodate a max. workpiece size $\Phi 700 \times 470 \text{mm}$ [$\Phi 27.6'' \times 18.5''$]. Six Hydraulic ports are equipped for easy fixture arrangements. Front doors will open widely and have no rails on the upper side. Loading/Unloading from above is easy using a hoist or over head crane.
